

RONALD AIRON S. TORRES

BSIT STUDENT | OJT APPLICANT

736 Penalosa St. Tondo, Manila | 09300092838 |torres.r.bsinfotech@gmail.com | EARIST - Manila

A dedicated 4th-year Bachelor of Science in Information Technology (BSIT) student seeking an On-the-Job Training (OJT) opportunity. Has basic knowledge in software development, web technologies, and UI/UX design, with a willingness to continuously learn and improve. Experienced in academic projects such as building simple applications and responsive websites. A responsible and self-driven learner with good documentation, research, and creative design skills, eager to gain hands-on experience and grow in a real-world IT environment.

Technical Competencies & Tools

- Programming & web fundamentals: C, C++, Python, Java, HTML, CSS (introductory React & Django).
- UI/UX design basics and academic web/mobile projects (Android Studio, Firebase).
- Databases & local development: MySQL (XAMPP/phpMyAdmin) and SQLite.
- Development tools & environments: Visual Studio Code, Android Studio, Jupyter Notebook.
- AI-assisted development tools: ChatGPT, Cursor AI, GitHub Copilot.

Collaboration, Version Control & Learning Platforms

- Version control and collaboration using GitHub
- Leveraged online resources and AI tools to improve coding, debugging, and continuous learning like ChatGPT (AI-assisted problem solving & documentation) Cursor AI (AI code editor & automation) GitHub Copilot (AI-powered code completion).
- Online learning and reference platforms: W3Schools, GeeksforGeeks, Codecademy, Stack Overflow

EXPERIENCE

Practical Experience

- Handled sales, customer interactions, and daily operations
- Learned teamwork, adaptability, communication, and problem-solving skills
- Helped run a family-owned food and cosmetics business and took on part-time labor roles (catering, general labor)

Academic Projects

- Developed group web projects using HTML, CSS, JavaScript, and Bootstrap
- Designed mobile apps with Android Studio and integrated Firebase
- Built and implemented web applications using Django with MySQL/SQLite databases for thesis projects
